

Edited by N. Coineau

**Increase in pelagic larval duration and geographical range for reef fish along an oceanic gradient**

M. KULBICKI - 1-9 - [Abstract](#) - [rokdownload menuitem="735" downloaditem="645" direct\_download="true"]PDF[/rokdownload]

**Short-term effects of tidal range on juvenile fish communities in fringing coral reefs (Mayotte Island, Indian Ocean)**

R. MADI MOUSSA, D. LECCHINI, R. GALZIN - 11-16 - [Abstract](#) - [rokdownload menuitem="737" downloaditem="646" direct\_download="true"]PDF[/rokdownload]

**Clownfish chemically recognized their sea-anemone host at settlement**

N. ROUX, D. LECCHINI - 17-20 - [Abstract](#) - [rokdownload menuitem="738" downloaditem="647" direct\_download="true"]PDF[/rokdownload]

**From the geochemistry of coral reef fish otoliths to climate: what can we learn from the example of Taiaro lagoon?**

F. Morat, D. Blamart, R. Lecomte-Finiger, S. Planes, R. Galzin - 21-28 - [Abstract](#) - [rokdownload menuitem="739" downloaditem="644" direct\_download="true"]PDF[/rokdownload]

**Are elemental and strontium isotopic microchemistry of otolith and histomorphometrical characteristics of vertebral bone useful to resolve the eel *Anguilla obscura* status in Lalo Lalo Lake in Wallis Island?**

G. BAREILLE, P. SASAL, N. MARY, F. J. MEUNIER, M.-H. DESCHAMPS, S. BERAIL, C. PECHEYRAN, R. LECOMTE-FINIGER - 29-39 - [Abstract](#) - [rokdownload menuitem="740" downloaditem="648" direct\_download="true"]PDF[/rokdownload]

**Preliminary study to explore the capture potential of endemic larval fish in the Marquesan Islands (French Polynesia)**

J. C. GORDON, M. TAQUET, D. LECCHINI - 41-45 - [Abstract](#) - [rokdownload menuitem="741" downloaditem="649" direct\_download="true"]PDF[/rokdownload]

**Advance in identification of pelagic eggs of Mediterranean teleostean fish: development**

**of a new identification key**

R. CREC'HRIOU, J. Y. MARINARO, S. PLANES - 47-61 - [Abstract](#) - [rokdownload  
menuitem="742" downloaditem="650" direct\_download="true"]PDF[/rokdownload]
